| PROVIDER: | US TILE |
| PROGRAM NO.: | UST101 |
| PROGRAM NO.: | The Beauty, Longevity, and Earth Friendly Benefits of Clay |
| LENGTH: | 1 Hour |
| CREDITS: | 1 Learning Unit Hour |
| HEALTH, SAFETY AND WELFARE: | Yes |

COURSE DESCRIPTION

An in-depth study of clay roofing tile, a comparison of other roofing materials, and the energy saving/green benefits of using clay.

LEARNING OBJECTIVES

Due to the increased focus on designing structures that lessen the impact on the environment, now more than ever building materials are scrutinized along these guidelines. This course will educate the architect on the "cool roof impact" on the building industry, the "green" benefits of using clay tile, and the differences between clay and other roofing materials.

INSTRUCTION METHOD

Facilitator will utilize a PowerPoint presentation and DLP projector.

A/V REQUIRED

A screen and electrical power are required. The facilitator will provide laptop and projector.

TARGET AUDIENCE

Architects, specifiers, owners, and other design professionals in the residential, commercial or multi-family markets. Audience size may vary depending on the space available at the venue. This program would be suitable for audiences of any size.

FACILITATOR QUALIFICATIONS

All facilitators will be US Tile Architectural/Sales Representatives or US Tile District Managers. These individuals are trained thoroughly on the specific program content and receive on-going training on the product characteristics, attributes, etc.

COSTS

There is no cost to bring this program into your firm or chapter meeting.
