

US T I L E  
A Boral Roofing Company

ClayLite®

[www.boralna.com](http://www.boralna.com)

Our "S" Style ClayLite® product line embodies the innovation that has become synonymous with US Tile. Designed specifically for the reroof market, our unique lightweight ClayLite products weigh less than 600 pounds per square, and do not typically require structural reinforcement.

Made from the same materials and processes as our traditional clay roofing products, ClayLite offers the superior performance, aesthetics, and kiln-fired color pallets with as much as 40% less weight.
